

No further news from the managers of the A. & N. M. Express Co. The Los Angeles Express, of July 8, says Mr. Wells is in San Francisco arranging to resume. *Quiescent.*

A French scientist named Tresca has demonstrated that electrical lanterns can be constructed so as to light streets, buildings, etc., much better by electricity than oil or gas, and from 50 to 100 times cheaper. Perhaps he has the secret of making the "Vrill" of which Bulwer speaks in his "Coming Race."

The announcement of Hon. Hiram S. Stevens, as a candidate for re-election to Congress from Arizona, will be found in this issue of the MINER. We have never had the pleasure of meeting Mr. Stevens, but have received many kind attentions from him in his capacity as Delegate, for which we take this occasion to thank him. So far as we are advised, he has attended to all requests of our people with promptness, and manifested a commendable readiness to serve his constituents. His record is before the people and to it he invites their attention in making up their minds as to their duty in the coming campaign.

The Republican Senate and Democratic House in Congress seem to vie with each other in demagogic practices, each hoping to improve the chances of their partisan nominees for the Presidency by acts of parsimony and niggardly littleness in the matter of appropriations. The House took the initiative steps and sought to popularize the Democracy by pretended economy in holding just dues from those who are furnishing the sinews of war, and the Senate seems to be craven enough to cower before the threatened advantage such action will give their political adversaries in certain quarters, and announce that they are ready, to meet the House half way in all reductions that will not affect existing laws.

They should have had the courage, to do right, as statesmen, regardless of appearances, or what the effect might be on a political campaign. Every member of both Houses understands that the Government cannot be carried on without money, and that it is no economy to withhold just appropriations which must sooner or later be made, with additions to cover the expense of delay.

**PRESS COMING.**—Our new cylinder press is now on the way from Chicago, and if no unnecessary delays occur it will reach here in August, after which time we shall enlarge the MINER, so as to do more ample justice to many interests, that for want of room, at present, we are obliged to pass over with very brief mention. In the mean time, however, we shall be much obliged to parties living in any part of the Territory for condensed reference to what is transpiring in their several localities. After the arrival of the new press we think of running a daily paper giving all the telegrams at least until after the Presidential election in November and if it can be made to pay, shall continue it indefinitely. We have no political object nor ambition in publishing a paper in Arizona, but are ambitious to publish a good newspaper which shall fully and fairly represent every industrial and social interest, and which shall give to every one his or her just meed of praise for duty well performed and censure where censure is deserved; this is our ambition, and this is our motive, in ordering improved machinery and preparing to meet any emergency as to quantity or quality of printing, that an anticipated improvement in our mining operations may bring about. This statement of the case would be incomplete however, and false, at least by implication, were we not to add that underlying all these considerations we hope ultimately to make it profitable as a business investment.

**DOMESTIC INFELICITY.**—Police court sketches being all the rage in some of the Eastern cities, Prescott, not to be behind in the race of progress, has been trying her hand at the new sensation, and some of her court scenes if written up by the Detroit Free Press man would eclipse anything that worthy has yet given to the public.

On Saturday evening in Judge Otis' court occurred a case growing out of domestic infelicity, in which a wife drank too deeply of the intoxicating cup, had sought the residence of a "soiled dove" where she was comfortably lodged when her liege found her, and with persuasive speech besought her to return and resume her domestic duties. To this she demurred in terms more emphatic than polite, closing her speech with an invective that seemed to cast a reflection on her husband's maternal progenitor. This aroused the spirit of manhood in his breast, there was a discrepancy in the testimony as to whether she fell out of bed, or whether he pulled her out, but at any rate she was on the floor, and to use his own words, as given in testimony he "raised her dress, and spanked her gently on the hip as he would an erring child." Meanwhile the witness made a waving motion with his right hand to show the jury how tenderly and affectionately the chastisement was administered. Other witnesses expressed it in different language and conveyed to the minds of the jury a different impression, but as he ought to know best what he did we only give his version. The climax was that he had her arrested on a charge of being drunk and disorderly, of which the jury acquitted her and appended to their verdict that she was entitled to a divorce, and she had him arrested for assault and battery, to which he plead guilty, and was fined \$30.

Special to the Miner by U. S. Military and W. U. Lines

Washington, July 11.—Postmaster Jewell has resigned. Tyner, of Indiana, will be nominated in his stead.

New York, July 12.—Clara Louise Kellogg offers \$1,000 for a monument to General Custar. James Gordon Bennett, will give \$10,000. Several other large subscriptions offered.

Nearly 60 deaths by sunstroke yesterday. The Surrogate has dismissed the petition to set aside A. T. Stewart's will.

St. Louis, July 8.—Robbers robbed Adams & Co., of \$4,000, and the U. S. Express of \$12,000 on train near Ottumwa.

San Diego, July 10.—There were in Custar's regiment 585 men and 26 officers, and of these 40 men were killed with Reno, and 57 wounded with Custar. There were about 240 in the battle, 21 dead were found and buried. It is reported that not a single man or officer who was with Custar escaped. The bodies of the following officers have been found and recognized: General George A. Custar, Captain Miles Keogh, Captain Thomas Custar, Lieutenants William Cook, Alderson Smith, Donald McIntosh, James Calhoun, James E. Porter, B. H. Hodson, and John J. Crittenden, Lieutenant and Dr. Lord, and Assistant Surgeon DeWolf. The bodies of Lieutenants M. V. Harrington and James G. Sturges have not been recognized but are undoubtedly killed. The Sioux had 4,000 men on the field and could not have lost less than 400 warriors. New York Herald's special says the other bodies were mutilated but Custar's was untouched, he lay as if asleep with a smile on his lips; near him were 11 dead officers; Captain Keogh was on his right, his brother Thomas Custar on his left, and near his feet a beautiful boy of 19, this was young Reed, Custar's nephew, he was visiting the General at the time he was ordered on the expedition and insisted on accompanying him to the field. A little way off lay Boston Custar, another of the General's brothers, all three of the brothers had fallen within a few feet of each other and on the skirmish line lay Lieutenant Calhoun, husband of Custar's sister. Kellogg, special correspondent of the New York Herald was found near Calhoun.

San Diego, July 11.—The election in Colorado resulted in a large majority for the Constitution.

New York, July 10.—50 cases of sunstroke Saturday.

Washington, July 10.—Blaine is appointed U. S. Senator in place of Morrill. Blaine's health is unimproved and he will not be able to take his seat this session. It is supposed Congress will adjourn in two weeks.

Great excitement was caused by a report that Gen. Crook's command had again met the Indians, and that Crook had been killed. The report is not confirmed.

The Secretary of War continues to receive dispatches from the West offering volunteers for the Indian war.

Gen. Pope has ordered Gen. Miles with six companies of the 5th Infantry to report at once at the scene of the Sioux war.

The Indians of the Upper Missouri are becoming uneasy and leaving their reservations. A general outbreak is feared.

Pratt, Commissioner of Internal Revenue, has resigned.

Don Carlos, of Spain, is here.

Cincinnati, July 9.—The letter of Hayes, accepting the nomination, favors Civil Service reform in the strongest terms, and declares in favor of one term. He says, if elected he will not accept a second; is for resumption of specie payment at the earliest practicable moment; says public schools should be placed beyond all sectarian influences. He would throw the whole influence of the Government to obtain for the South an honest and capable local government.

Leading papers throughout the country speak of Hayes' letter as a clear, manly, unequivocal declaration of principles. The Herald says he must have had help in preparing it, which is denied.

Omaha, July 9.—The 23d Infantry, stationed at Fort Wayne, near Detroit, left this morning by special train to join Terry at Fort Lincoln. Two thousand troops will be put in the field immediately. This force Sheridan thinks sufficient, and no volunteers will be accepted.

Washington, July 12.—General Sherman feels no apprehension of the safety of General Crook and his troops. Thinks all the fighting Sioux are not more than 2,500 and that our troops on the ground are more than a match for them. Special from Fort Lincoln says Custar attacked 48 hours before the time Terry was to reach a point where he could co-operate with him. He swung his hat, said, "Hurrah! Hurrah! Custar has struck the biggest Indian Village on the Continent," and with five companies sailed in.

G. W. Barnard is putting up a stable and corral on ground leased from Judge Howard, adjoining Fort Misery No. 2, on Montezuma street, which in addition to the usual livery and hay-yard business, will be used as a horse market, for the purchase and sale of all kinds of stock, wagons, harness, saddles, etc., etc.

Mr. Flores, who used to have a manufacturing jewelry establishment opposite the C. & A. stage office, has been to California, grown tired of it and returned, and is erecting a shop adjoining Judge Howard's Office.

Jim Harrington and partner have finished their contract to sink fifty feet on the Whipple mine, and have developed a large body of low grade gold ore. There is quite a favorable prospect, we learn, for the erection of a mill to work the Salvador, Whipple, etc., in that vicinity, being only three or four miles from Prescott.

## Extracts from Proceedings of the Board of Supervisors.

Board met July 3d, full Board present. Petition for election precinct at Springerville laid over. That of W. H. Hardy, as to road, indefinitely postponed.

C. Bennett appointed Justice at Clifton. Recommendation that Francis Chavis, of New Mexico, have his taxes reduced.

Thos. Nelson allowed \$80 for nursing Capt. Shoup in June.

F. Bartel, allowed \$25 for nursing Thomas Sheby.

Thos. Whitehead allowed \$96.90 for feeding Territorial prisoners, and \$305 for those of the County.

Dr. J. N. McCandless' bill of \$900 for professional services in attending compound fracture of Capt. Shoup's leg, disallowed.

Board settled with County Treasurer.

L. A. Stevens allowed \$17.55 for eggs and milk for Kerby, indigent sick.

John H. Behan allowed \$10 per day for 40 days for taking census, \$400.

Ed. F. Bowers allowed \$41.40 for registering 276 names on Great Register, \$500 for assessing, and \$80 for taking prisoners to Yuma.

Dr. Day allowed \$50 for holding post mortem examination on the body of Cagnon, at Chino Valley.

The Board of Equalization has been in Session during the week and is still sitting. They have reduced the following flocks of sheep from \$3 to \$2 per head: 1,300 belonging to H. Bixby, 1,400 to Brown Bros., 2,000 to Campbell & Baker, 1,200 to Chas. C. Carpenter, 800 to Elchito & Co., 600 to R. Ferrington, 1,230 to Jacob Fleur, 740 to G. W. Hance, and 500 to P. B. Hawkins; W. R. Campbell 500.

W. M. Buffum was raised on lots and improvements \$900; H. Brooks on land and improvements \$1,000; H. Hallon \$240; H. H. Cartier \$500, and Chas. Dickinson \$150; O. Allen \$1,000.

Mrs. Cullumber's assessment was reduced \$1,000 under the law exempting \$1,000 in favor of widows.

H. W. Fleury's two lots, in block F, reduced \$200; and Fleury & Head's 28 lots reduced \$80.

Arrivals and Departures for the Week ending July 14.

C. & A. STAGE—ARRIVALS: H. M. Herbert, Mr. Parker, J. W. Morsehead, Prof. A. Fischer, M. L. Peralta, Mrs. A. L. Leggett, Gov. Cossabough.

DEPARTURES:—John A. Rush, Mrs. J. A. Rush, Dr. Goodfellow, Mrs. Dickinson, Mr. Sheekles, Alex. Harris, Mrs. Bell, Miss Bell, Peter Martin, J. H. Salt, L. Melton, W. Schuh, P. Dealin, Mr. Strauss, Prof. A. Fischer, Wm. Robinson, Harry Moore, John Chappa, Mrs. Jno Chappa.

We heard on Saturday that Mr. Mulvenon, of the Turkey Creek furnace, and another man, had come to town badly led by the fumes from the smelter, but upon calling at Mr. Ganz' lodging house we found Mr. Mulvenon suffering from an attack of fever, brought on by overheating himself at work at a mine, but, according to his own statement of the case, without any symptoms of lead poisoning. Mr. Mulvenon, we are glad to say, has recovered and gone back to his work.

Thomas Cherry, who owns the Victoria mine, between the Senator and Washington, at the head of Maple Gulch, has struck ore that in appearance cannot be told from that which Frederick & Co. are taking from the Senator and working in the mill. Mr. Cherry showed us a specimen, on Saturday last, of which he says he has a large body that by assay shows well; also a specimen from a mine found by him on Slate Creek, which, although it is galena ore, Mr. Pletz found it, by assay, to contain \$117.79 in gold.

The reported death of General Crook is not generally believed, although flags were at half-mast here yesterday, and every evidence shown that our people are not ungrateful nor forgetful of their benefactor.

**COMMUNION.**—The Sacrament of the Lord's Supper will be administered by Chaplain Gilmore, assisted by Rev. D. B. Wright, at the M. E. Church, on Marina street, immediately after service on Sunday morning.

The prettiest specimen of gold in crystallized quartz we ever saw or heard of, was shown us by Col. C. P. Head, and came from what is known as Row's mine, near the Gila. This specimen is three or four inches in length, showing the perfect faces of the crystal, which are not so smooth and glassy as quartz crystals usually are; but to make up for any want of regularity or polish, it is thoroughly impregnated, as it were, with the brightest and most beautiful quality of gold, which extends in blotches from base to apex, and terminates at the top in a sort of golden cap.
